

Latest news on the IAC Console for NEC and NEC Channel Partners
from the desk of Warren Simon ...

IAC Console V9.5 – Local Language is Easy!

“CTI is committed to providing high quality applications and support exclusively to NEC and the Channel to help you win and retain customers.”

IAC Console V9.5 – Local Language Configuration is Very Simple

IAC Console is the most Professional Attendant Console for NEC Customers on SV8500 and SV8300 systems

- Local language support included with each IAC V9.5 licence (no additional cost)
 - o Initial release includes Chinese, Korean and Thai languages
 - o Other languages (eg. Japanese) can be included upon request
 - o NEC Customers will appreciate the simple drop-down Language Menu (as shown above)
- Full support for Windows 7 (32-bit and 64-bit)
- Full suite of Standard Reports and **optional Advanced Reports**, or **optional Call recording** feature
- IAC V9.2 is still available for fault/fix and existing customers who are *adding* an additional V9.2 console

[Tech note: IAC V9.5 uses XML configuration files instead of “.ini” files. You must use IAC ConfigTool to configure new systems.]
