

## CTI Sales Newsletter

Nov 2008

Latest news on the IAC Console, IAC WebView and CTI Dial-It for NEC and NEC Channel Partners from the desk of Warren Simon ...

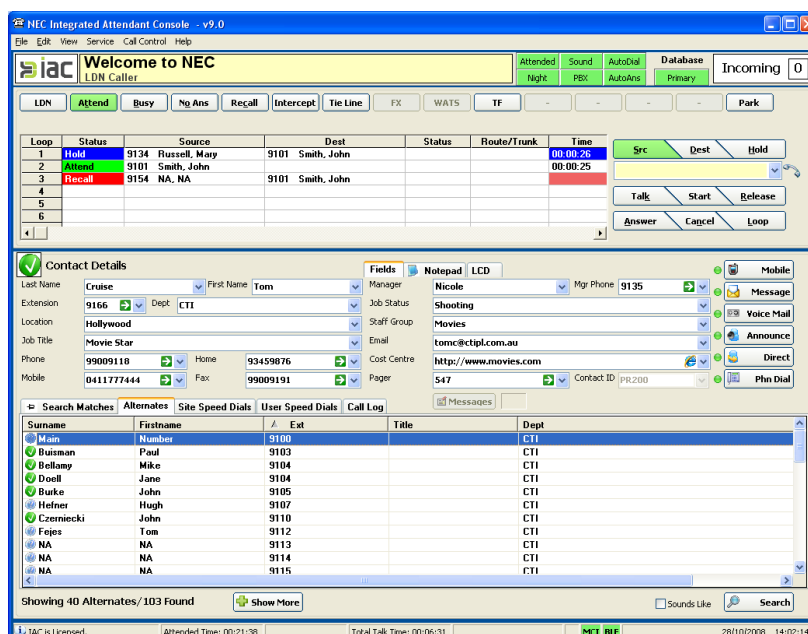

### **IAC Console V9 – NOW RELEASED BY NEC/A !**

*“CTI is committed to providing high quality applications and support exclusively to NEC and the Channel to help you win more business.”*

## Version 9 is now officially released and shipping from NEC Australia...

- After extensive Beta testing at the University of NSW and two Christie Corp serviced office sites, Version 9 has been released by NEC/A on Monday 10<sup>th</sup> November.
- *This is the most significant new release of IAC Console in many, many years.*
- *IAC is arguably the most sophisticated, reliable and highly flexible PC-based operator console on the market!*
- Many Large PBX system customers will be interested in upgrading to this version:
  - Improved productivity and performance, as well as new standard reports
  - Advanced Reporting optional feature
  - Voice Recording optional feature
- Refer to attached “IAC Console - V9 New Features.pdf” document for detailed information about what’s new in Version 9...
